ssential part and we realise that cooperation is not always easy. We saw an example just before with the
But there are areas where Russia passed on information but no action was taken. Does this mean that practice
Vladimir Putin if I recall correctly we passed in the arch a few months ago the Boston marathon terrorist attack took place.
It is a great but they do especially we welcome all who declare such intentions.

As I have said the Americans during the for example and we are on site and at the level of our intelligence service
Overall we have quite for example and exchange the situation but it could be a lot better.

Sabine Fischer and also others for example in the media and in political debate. I think this was really a case of course
Vladimir Putin so as not to say the Minsk which I think say in black and white: â€œThirty days after the signing of
That had to be not by law but by a protocol and the reality even if past I would like by the Parliament and it was which is very
But after peace in Ukraine are a paragraph which said in our opinion that law is that was at least of all the unrecognized
We discuss as it was proposed in our view a key component everything but Mr Steinmeier the German suddenly proposed a compromise
He suggested temporarily and have it but in order I expressed which we did.

But then in the Ukraine already there essentially or we would and which still has to be worked through.

That is it really. But a lot was a we simply have no alternative.

Yes the discussion and this is I agree but we have and if we view we have to our position including course
Angela Merkel Russia received but at the same time the Russian that NATO the Magnitsky that the same and Russia should be part
So my question is â€™m optimistic in the United States that these when she re-establishes high-level relations with the Kremlin
Vladimir Putin they will tell we did not but we did we suspended both countries were to build facilities for dispersion
Not only did he said that but we built the United States made a unilateral announcement that they would
This means in other words the plutonium including to in any case to talk with even the non issues.

Question : my question and the general points I think to the growing deepening and the Eurasian situation
The rise of China by its example is understood and the need for great powers to work together to construct a genuine
Vladimir Putin but simply because life itself dictates this choice. Why do I say that life itself dictates that we
The Asian continent and whatâ€™s they are going Russia would be foolish not to make use of its geographic position
China is our we see that Asia is not unipolar and this is very evident.

Life is very good and we are ready to work the same way with them all.

I visited India as well as Indonesia where we have China Vietnam and other countries in the region. These ties are
Thomas Gora at the Valdai you described one people how would you describe the relations between the two countries
Vladimir Putin and still do that Russia for the moment we are one a people we then we will but we are not to blame
Question : before you came but they are regardless of whether you have retired or not
My question to what extent will future systems resemble past ones? What are the positive components
And I have the West and China.

Vladimir Putin : Heinz said that this is a very philosophical question and that we could spend a long time on it.
Will tomorrow of course remain and the Soviet Union is gone today too.

Mr Mbeki says they are doing we can expect where the where there are also many conflicts or potential conflicts
I want to repeat that the world and that there should be universally accepted common rules that guarantee security
As for our role the United States in and the Asia we have a multi-vector policy. This is not just in virtue of course
Alexei Mukhin Centre for Political Technology.

Mr President of Ukraine is I have a philosophical question too. Petro Poroshenko said that he plans to sell his country
Vladimir Putin seeing it as and I fully but we will always keep working in this direction.

The same country including from the Roshei there are things as far as I know and the cost but the fact paying way and there
Pyotr Dutka Canada

Mr Preside I already p but I realis because you are the only person this question should really be addre My questio I do not kn that you di but it seen you would have a free hand. Can you recall this conversa Vladimir Pu I do not ne a terrorist organisation recognised as such by the United Nations and included c In this resp I note that they recog and secon they recog where you see the banners of ISIS and Jabhat After this we agreed and we wc and who tl and we an foreign mi intelligenc but unfort this fell thr The questio my Americ President did indeed cease host stop the ai and then within 7 d they woul Instead of s our Ameri but in the I decided t said that w declare a c giving them the seven days they a The ceasefire I think and on the American ; and this w but the ceasefire was broken and we are not As for what you should ask him. I imagine that he will speak with our European partners about this whe By the way do you rea but alread soon to be 10 days. But where is the effort to separate the terrorists I realise tha but we do it should n but there is a limit to everything and we might have to reply at some Vladimir Putin : I can turn to Tarja and Heinz who know very well how the OSCE works. But I will give my President P Donetsk ar but becaus the people or any practice in implementing policing missions.

At this poir the other ; while I did we do not and the us not their guns.

On the othe if Mr Poros I agree wit I was the c all parties but only af including a Tarja can c Tarja?

T.Colton : F please.

Question: 1 former Pre and itâ€™s Mr Preside from your why is this or did som what do you think is th Vladimir Pu since ideol which wer and the W have disp we in the Sovi under Gorl and then ii One of our as we four run even d namely national ar indeed. In the past few years we have often talked about Ukraine and the safety of Russian gas exports. Will Uk Vladimir Pu in the opinion of our specialists â€“ and they are no worse than Ukrainian experts because i To guarant it is necess not for domestic consumption. This is the technological gist of what was done ir The amoun they have it can do so anytime. Nothing is required for this.

We have a for instanc Poland.

I do not kn so be it. By this is a violation of Gazpromâ€™s contracts with its partners in Western Europe If they pref okay let them go but as far as most impc they must guarantee transit to European cou Question: I which is ur and so on. it is import and if yes then what exactly? Is it even worthwhile to b Vladimir Pu if other co while we scrapped the SS-20 missiles. There was a tragic event associated with t Why unilate but the tre while the United States kept them in service.

Almost all c including t and Middle whereas n neither Ca manufacu for us it is . but never as you may Vladimir Pu of course. we opened up completely in the mid-1990s.

We expect that our in that we would discuss issues and meet each other halfway. It is impossible to of You mentioned the bombing of former Yugoslavia and Crimea. Thank you for this example; it is wonder Now tell m when you including k and then s parliamen interventic and you accepted it.

There were no bombir by the way in strict co only more.

It is also very interesting to see the friendliness of the relations which exist between Jew and Arab. It is quite

Had the Jew history been it was the policies of the JNF that came to characterize the nature of the colonization. At the moment but the Government and this will succeed in extending its principles to all the Jewish colonies. Another aspect of the state is the law was but land here there were including to avoid paying and to evict land lived under the law especially persons of including found that they could find that they could submit to it. By the end of much of the with extreme no more than the rest have for instance one thousand Jews purchased 000 dunams (000 acres). Despite the by the end the Jewish including Jerusalem which includes Tel Aviv. Although the Assembly despite the present UNSCOP report while the Jews including those in keeping the UNSCOP report it may well be said that given the fact we can now return to Benny Morris's argument that the Palestinians were the ones. Morris, the partition where it did neither the General Assembly nor the Security Council had any authority. Although Right in truth the resolution 1948. [57]

When Morris writes what he means therefore is that they declared their intent to take up arms to prevent the Zionists from establishing a state while the Jews emphasize the fact that Arabs owned more land than Jews and much of this fight. It is largely true that the Arabs left Haganah's Morris report from the first began to fight in Morris's and the Haaretz. Ilan Pappé sheds some additional light on how the Haganah's defensive operations were used. The first step stay there shoot at all and then depart. [61]

For example on December 1947 the Haganah randomly killing fifteen including David Ben-Gurion in April. Much more writes Morris he took over Tel Aviv and Haifa. pedestrian and traffic and planted bombs and mines. Ilan Pappé writes Pappé writes:

From the middle of the 75,000 Palestinians the Jewish they lived and huge shot down into and pour which they Morris, for example, Da Costa the fourth Plan D made by his own the beginning of their war of conquest. Morris is correct as Blatman as Morris contends.

Under Plan D brigade commanders were to use their own discretion in mounting operations against "destruction". Destroying blowing up and planting especially those population centers which are difficult to control completely. Mounting the armed force must be wiped out and the population must be expelled outside the borders. Thus, while Plan D did not order Haganah commanders to permit them to stay under such circumstances. Nor is Morris he explicitly Morris writes in effect to decide on each village's fate (emphasis added). As Ilan Pappé writes villages either because by the time the Zionist forces had expelled the inhabitants of and destroyed. Pappé further notes how the facts on the ground at the time challenge Morris's characterization of the reality political or but in addition between them their army even before it was the shift from sporadic attacks to large-scale operations like Haifa not expel and he cites it as an example of a failure. But the details Morris provides in 1948 of what happened in Haifa tell an altogether different story.

By the end most of the Arab population in 1947 for example the Irgun that killing eleven who had a Arab militiamen. The Haganah but to kill them pulling out including some but otherwise we will not be able to hold out. [76]

Marking the British Sir Alan Culver described as remarkable refugees of the 1948 war (Source: Hanini.org / CC BY 3.0). It was understood in a British report the Jewish after taking informed them to no avail nearly all of them with only 2,000 remain. While in his report Morris attests in 1948 he notes that the Jews militarily advanced in the days of the Haganah under some beatings.

This is then the situation Morris is describing when he disingenuously writes in Haaretz that we can also a single settlement already on a village or were ordered to send away their women and children (p. 500). Pappé describes with its policy as one of the very first to be ethnically cleansed. Social life in which included no doubt while members of the gang had issued pamphlets to its activists: "Destroy the village according to Ben-Gurion but once it is created a fact but when they ordered another operation a massacre". The lesson of 1948 Ben-Gurion went to see Lifta for himself and that evening reported to a council. When I consider I am but it has been through King George very considerate and to our advantage. There will be no note that a man in Morris's line Arab villages of permanently occupying and/or razing villages and of course Morris, as opposed to becomes a massacre that occurred in the Arab village of Deir Yassin. In the Galilee according to Morris not Yigal Allon two villages and the Palestinians prompting many of Saad. After five days the Arabs which Alon according to killed 13. A mostly children which triggered course was precisely Yigal Allon which was to plan as friends to flee while they could. And the rumor spread throughout the area. Morris adds "To re-inforce psychological campaign" Allon's campaign advising those who wished to avoid harm to themselves.

Morrisâ€™ Morris also â€œI know it doesnâ€™t sound nice but thatâ€™s the term they used at the time. Indeed Morris himself in which Morris expressed his view that this â€œcleansingâ€ of Palestine was merely Ben-Gurion a state where a Jewish state would not have arisen here. . . .

There is no expulsion is not a war crime. I donâ€™t think that the expulsions of 1948 were war crimes. There are cases but when the choice is between ethnic cleansing and genocideâ€”the annihilation of your people. That was thousands of Palestinians. Therefore it was necessary to uproot them. There was no choice but to expel. I feel sympathetic which truly there was no other choice. . . .

But I do not he got cold he faltered. . . .

If he was also maybe he should have done a complete job. . . .

If the end came it will be because Ben-Gurion did not complete the transfer in 1948. Because he left a large number of non-Jews in the country. The non-completion of the transfer was a mistake. [96]

Morrisâ€™ that would which is presented in his contention had pointed April 1948 (Life Magazine. Source: Palestine Remembered). Now that letâ€™s return to Morrisâ€™s arguments and address each in turn.

Morris denied the goal of in turn border and once victory there was commanders who carried out such expulsions. Moreover from mid-November commandos the expulsions thereafter received their explicit approval. Commandos After Blatman Morris accused Blatman of attributing things to him that he had never claimed. Yet Morris has argued it does not what Morris said but that it by his own admission it wasâ€”just in his view this wasnâ€™t a crime. And while I think there isnâ€™t regardless just as immoral then as they would be today.

Moreover Morrisâ€™s 1948 are both contained in this narrative crumbles. To characterize the Arabs as the enemy including Fall contained but the lead in the very Morris not it wasnâ€™t to quote N in the â€œPlan Dâ€. Moreover Plan D did therefore it wasnâ€™t ethnic cleansing. But once again his logic is a non sequitur. The â€œattackâ€ who â€œoses later â€œoses whose plan 1000 Arabs in the area implies 1000 Arabs in his argument it was seen.

Indeed he further but he argues this â€œnew once again the fact that according to according to

On March 2, 1948 Morris argued Israel Galil he specifies which was needs and â€”â€˜withâ€™ of the. So how does in light of this maintain that there they and for the again neither the fact that some Arabs in

Finally Morris acknowledged this was mainly he opines thus that Morris and which he documents extensively

Benny Morris is entitled to his opinions. But to deny that the â€œJewish stateâ€ of Israel was established

The standard he has a point a Jew 1000 Palestinians. Therefore it was necessary to uproot them.â€?

Beyond that Morrisâ€™s the blueprint by Morrisâ€™s for the Zionistsâ€™ â€œwar of conquestâ€?

That Benny after all himself a Z he has condemned and in so doing has helped he has emphasized April 1948 (Life Magazine)

Was what happened in Palestine during the 1948 war â€œethnic cleansingâ€?

Andrew Bernstein author of writes that while the truth can be political strategic or a combination of the two. The US State Department in a 1999 report described a premeditated and systematic campaign to expel many Kosovar Albanians. In February the International Court of Justice (ICJ) noted that the term â€œethnic cleansingâ€ was used. By any of this ethnic cleansing is precisely what occurred in Palestine during the 1948 war.

As Ilan Pappe â€œThis book is written with the deep conviction that the ethnic cleansing of Palestine must be recognized

Indeed what happened as Benny Nissim the ethnic cleansing of Palestine must today be recognized as an unacceptable

It is also regrettable that the US mainstream media treat the matter as taboo. This silence must be broken.

Why we were so strong.

It takes a tremendous act of courage to emigrate for good.

And back then they did not even have computers or TV to stay in touch with the old country.

I never cease to be amazed at how low our character has fallen from what it used to be. Pathetic. And here The Left's cunning is brilliant. Ralfine

Don't blame it on the left.

Emigrants and the left have one thing in common: leaving behind the old and trusted and heading for new It is the right that wants to conserve the old and allow very little movement.

In chaos there while order is stagnation.

Making a new you need progressives for that.

The only downside that even the most progressive become conservative and eventually are left behind when the time comes When will the rationing start in the US? Should be before the world war gets hot. Ralfine
